

# APP: EASY TABLET HELP FOR SENIORS

Easy Tablet  
Help For Seniors

**This app provides an additional resource for technology help.** It provides access to hands-on, interactive, step-by-step instructions for developing basic tablet skills, allowing you to learn at your own pace.

1. Once the app is open, please turn your device horizontally so the entire display fills the screen. This will make it much easier for you to see and prepare everything
2. Select Android Tablet and follow the instructions on the screen to start
3. Tap on any of the different categories to begin your technology assistance. From there, follow along with the displayed instructions
